Siza water REP: Mr Kobus

- \* More pump station are still coming
- \* Foxhill development is coming soon
- \* Tiffany's reservoir water tank is an on going project that takes elateni and Zululami
- \* Also a plan for Salt Rock and Hugh dent for its own pump
- \* We have 2 large dams that are providing Hazelmeer dam and Tugela River
- \* We expecting more developers

SDF Rep : Mr Dennis

Rebecca

Nonhlanhla

- \* This is our first meeting
- \* It is different to IDP
- \* We can appoint what we require on SDF
- \* Its a planning ultimate set of proposal that are accepted by government and stake holders
- What is an IDP : is an indicative development objective key strategies for 5yrs plan

What is an SDF : A special plan that translate the goals & development for municipality its a 30-yr plan

Mr Jali : Richmoore bulk in IDP 2019/20/21

Mv upgrades ordering of tools in progress  
challenges is mainly power and street light

Mr Khanyile : Community services & amenities

Tompson bay is an normal process  
private sectors have intrest on upgrading  
facilities and KDM have given them  
a go ahead

- Coastal project mainly they are causing  
floods on roads

- Repairing of toilet pads and shower  
funds have been allocated

Challenges: funding is limited on  
providing services on coast eceromy  
is strugglig to fallow laws

Park & Gardens : All wards allocated funding  
regarding services

Community Safety : We are aware of community  
and safety and making sure its  
taken care off by increasing  
lifeguards in our beaches

Questions: Mr danny

For Siza water : on what basic you appoint a  
great contractor on supplying water

Ann Macdonald : SDF - why are we not fixing what we  
had before planning future coming fix  
railways transport

Dean - Waste management would be short if the SDF plans are taking all land  
 - what is the time frame

Penny - Is the public school in a table

Lucky - Pedestrian excess need to be priorities

Cindy - The issues regarding Sanral is a major because it takes people life the silent of installing robots etc is unfare to innocent life.

Hans - Power is concern in our ward  
 - what do you have to control power failure  
 - There must be a quality check on fitting and changing of streetlight

Nil - Can we maintain what we have  
 - Fix before starting new developments  
 - Current impact of drilling off shore  
 - Plants must be also taken care off

SEA : A policy that informs how to protect conserve environmental areas

assist in guiding developers to the most appropriate land for development

SDF process : Inception engagement

- Situational analysis
- Partial framework engagement
- Final SDF, draft implementation
- close

\* Team looks at the current perspective in negative and active

\* Radical Economic Transformation : Land

Housing

Service delivery

\* Most land is used as Agricultural

\* Its needs to be developed and more job creation

Youth development

\* We need to enhance the land and up upgrade it on youth activities

Good governance : We need a good governance in order to functioning well

- good roots on attracting tourism

Location : Beaches

Future influence : Technology changed and transformation

- how do you position yourself as KDM

Aerotropolis

- how we utilize the land, and have an allocated province they approved by countries

New partnership - how to come up with partnership by communication. Facebook, whatsapp, News and twitter  
Follow #hashtag: KDM SDF 2019  
whatsapp is for comment & ideas

Mr Sithole : KDM Rep

- building, maintenance services in municipal places, Project Management Unit (MIU) (EPWP)
- Roads & storm water
- Traffic calming, side walks, shelters

### Challenges

- The scarcity of land for human settlement development
- Unavailability of funds for land acquisition
- lack of council owned land for human settlement in ballito makes it possible for council to ensure intergrated of communities
- Insufficient funds for bulk infrastructure like bulk electricity, roads, sewerage and water
- Budget - cut / constraints
- Population adds

Electrical Eng : Mr Jali

- Contract are allocated 14 months to service and repair
- Mostly are faults and falls in home maintenance and trees are blocking them the streetlight
- There is an internal fibre cables in process
